

# Speed Cameras in NSW

## Email Update

Transport  
for NSW

April 2013

Thank you for signing up for email updates about changes to speed cameras in NSW.

### New red-light speed camera locations – Sydney

As part of the NSW Speed Camera Strategy, 14 new intersections have been identified for the installation of red-light speed cameras. The intersections are listed below.

Site selection includes both crash analysis and thorough assessment of the site to ensure that installation of a camera is appropriate

Cameras and warning signage are currently being installed and the new locations are now being progressively activated.

Drivers are advised to observe the posted speed limit at all times.
