

Safer Roads NSW

Changes to permanent speed limits

Transport
for NSW

3 July 2014

Northern

The changes below are anticipated to take effect in the following two weeks.

Speed limits are set for all roads in NSW in accordance with the NSW Speed Zoning Guidelines. The changes outlined in the table below have been recommended following the completion and approval of a speed zone review by authorised speed zone officers.

This is advanced notice of a proposed speed limit change, however no change will occur until the relevant speed limit signs are changed.

Please ensure that you always observe the posted speed limit signs on the road.

Road name	From	To	Local Government Area	Current speed limit km/h	New speed limit km/h	Reason for change
Pacific Highway, Tyndale (Northbound)	240 metres south of Coldstream Road	880 metres north of Sheehys Lane	Clarence Valley	100	80	This change reduces the speed limit at this location in response to local community concerns.
Pacific Highway, Tyndale (Southbound)	240 metres south of Coldstream Road	1.13 kilometres north of Sheehys Lane	Clarence Valley	100	80	As above
Cowlong Road, McLeans Ridges	300 metres south of McLeans Ridges Road	700 metres south of McLeans Ridges Road	Lismore	100	60	This is a predominantly rural road, the number of intersections and driveways have been taken into consideration. The speed limit change is expected to improve safety for residents and road users.
