

# Safer Roads NSW

## Changes to permanent speed limits

Transport  
for NSW

24 April 2014

### Northern

The changes below are anticipated to take effect in the following two weeks.

Speed limits are set for all roads in NSW in accordance with the NSW Speed Zoning Guidelines. The changes outlined in the table below have been recommended following the completion and approval of a speed zone review by authorised speed zone officers.

This is advanced notice of a proposed speed limit change, however no change will occur until the relevant speed limit signs are changed.

**Please ensure that you always observe the posted speed limit signs on the road.**

Road name	From	To	Local Government Area	Current speed limit km/h	New speed limit km/h	Reason for change
Martins Lane, Piallamore	Nundle Road	End of Martins Lane	Tamworth Regional	100	60	This speed limit change better reflects recent development and improves safety for residents and road users.
Top Oakey Lane, Piallamore	Martins Lane	End of Top Oakey Lane	Tamworth Regional	100	60	As above
Nundle Road, Piallamore	400 metres east of Keridene Road	500 metres west of Martins Lane	Tamworth Regional	100	80	As above
The Gap Road, Werris Creek	2.2 kilometres west of Werris Creek Road	300 metres west of Cana Road	Liverpool Plains	100	80	This speed limit change will improve consistency with surrounding speed limits to provide a simpler and safer road.
