

Safer Roads NSW

Changes to permanent speed limits

Transport
for NSW

27 February 2014

Northern

The changes below are anticipated to take effect in the following two weeks.

Speed limits are set for all roads in NSW in accordance with the NSW Speed Zoning Guidelines. The changes outlined in the table below have been recommended following the completion and approval of a speed zone review by authorised speed zone officers.

This is advanced notice of a proposed speed limit change, however no change will occur until the relevant speed limit signs are changed.

Please ensure that you always observe the posted speed limit signs on the road.

Road name	From	To	Local Government Area	Current speed limit km/h	New speed limit km/h	Reason for change
Wandobah Road, Gunnedah	50 metres south of Lincoln Road	880 metres south of Lincoln Road	Gunnedah	70	50	This speed limit change better reflects recent development and improves safety for residents and road users.
Fernleigh Road, Tintenbar	Tintenbar Road	Friday Hut Road	Ballina	100	80	This speed limit change will improve consistency with surrounding speed limits to provide a simpler and safer road.
