

Safer Roads NSW

Changes to permanent speed limits

Transport
for NSW

31 July 2014

Northern

The changes below are anticipated to take effect in the following two weeks.

Speed limits are set for all roads in NSW in accordance with the NSW Speed Zoning Guidelines. The changes outlined in the table below have been recommended following the completion and approval of a speed zone review by authorised speed zone officers.

This is advanced notice of a proposed speed limit change, however no change will occur until the relevant speed limit signs are changed.

Please ensure that you always observe the posted speed limit signs on the road.

Road name	From	To	Local Government Area	Current speed limit km/h	New speed limit km/h	Reason for change
Oxley Highway (Gunnedah Road) Westdale	70 metres west of Bass Street	180 metres north west of New Winton Road	Tamworth Regional	80	70	This change reduces the speed limit at this location in response to local community concerns.
