

Safer Roads NSW

Changes to permanent speed limits

Transport
for NSW

19 June 2014

Southern

The changes below are anticipated to take effect in the following two weeks.

Speed limits are set for all roads in NSW in accordance with the NSW Speed Zoning Guidelines. The changes outlined in the table below have been recommended following the completion and approval of a speed zone review by authorised speed zone officers.

This is advanced notice of a proposed speed limit change, however no change will occur until the relevant speed limit signs are changed.

Please ensure that you always observe the posted speed limit signs on the road.

Road name	From	To	Local Government Area	Current speed limit km/h	New speed limit km/h	Reason for change
Junction Street, Nowra	Berry Street	O'Keefe Avenue	Shoalhaven	50	40	This speed limit change introduces a High Pedestrian Activity Area in the town centre to provide a more pedestrian friendly environment.
Kinghorne Street, Nowra	40 metres south of Junction Street	40 metres north of Junction Street	Shoalhaven	50	40	As above
Picton Road, Wilton	220 metres south east of Almond Street	300 metres north west of Pembroke Parade	Wollondilly	100	80	This change reduces the speed limit at this location in response to local community concerns.
Nerriga Road, Morton National Park	9 kilometres west of Wandean Road	4.83 kilometres east of Gretas Road	Shoalhaven	80	100	This change reflects upgrades to the road which permit a higher speed limit and improved travel times.
