

Safer Roads NSW

Changes to permanent speed limits

Transport
for NSW

16 January 2013

Western

The changes below are anticipated to take effect in the following two weeks.

Speed limits are set for all roads in NSW in accordance with the NSW Speed Zoning Guidelines. The changes outlined in the table below have been recommended following the completion and approval of a speed zone review by authorised speed zone officers.

This is advanced notice of a proposed speed limit change, however no change will occur until the relevant speed limit signs are changed.

Please ensure that you always observe the posted speed limit signs on the road.

| Road name | From | To | Local Government Area | Current speed limit km/h | New speed limit km/h | Reason for change |
|---------------------------------|---|--|-----------------------|--------------------------|----------------------|---|
| Charles Booth Way, Millthorpe | Intersection with Forests Reef Road | Entire length of Charles Booth Way | Blayney | 100 | 60 | This change reduces the speed limit at this location in response to local community concerns. |
| Forest Reefs Road, Millthorpe | 620 metres west of Glenorie Road, Millthorpe | 180 metres east of Tallwood Road, Forest Reefs | Blayney | 100 | 80 | As above |
| Forest Reefs Road, Forest Reefs | 255 metres north of Long Swamp Road, Forest Reefs | Intersection with Orchard Road, Spring Terrace | Blayney | 100 | 80 | As above |
