

# Safer Roads NSW

## Changes to permanent speed limits

Transport  
for NSW

23 October 2014

### Western

The changes below are anticipated to take effect in the following two weeks.

Speed limits are set for all roads in NSW in accordance with the NSW Speed Zoning Guidelines. The changes outlined in the table below have been recommended following the completion and approval of a speed zone review by authorised speed zone officers.

This is advanced notice of a proposed speed limit change, however no change will occur until the relevant speed limit signs are changed.

**Please ensure that you always observe the posted speed limit signs on the road.**

Road name	From	To	Local Government Area	Current speed limit km/h	New speed limit km/h	Reason for change
Newell Highway (Sherriff Street)	150 metres south-west of Browne Street	60 metres north-east of Browne Street	Forbes	40	50	The change to the existing school zone better reflects the use of pedestrian access points by students.
Browne Street	Newell Highway (Sherriff Street) intersection	20 metres south-east of the Newell Highway (Sherriff Street)	Forbes	40	50	The change to the existing school zone better reflects the use of pedestrian access points by students.
Wambat Street	Newell Highway (Sherriff Street) intersection	60 metres south of Newell Highway (Sherriff Street) intersection.	Forbes	40	50	The change to the existing school zone better reflects the use of pedestrian access points by students.
