

# Safer Roads NSW

## Changes to permanent speed limits

Transport  
for NSW

24 April 2014

### Western

The changes below are anticipated to take effect in the following two weeks.

Speed limits are set for all roads in NSW in accordance with the NSW Speed Zoning Guidelines. The changes outlined in the table below have been recommended following the completion and approval of a speed zone review by authorised speed zone officers.

This is advanced notice of a proposed speed limit change, however no change will occur until the relevant speed limit signs are changed.

**Please ensure that you always observe the posted speed limit signs on the road.**

Road name	From	To	Local Government Area	Current speed limit km/h	New speed limit km/h	Reason for change
Jenolan Caves Road, O'Connell	250 metres north of intersection with Beaconsfield Road	2.9 kilometres north of intersection with Beaconsfield Road	Oberon	100	80	This change reduces the speed limit at this location in response to local community concerns as well as the previous crash history.
