## Speed Cameras in NSW

### New red-light speed camera locations - Sydney

Twenty new red-light speed cameras have been approved for installation across Sydney. The locations are listed below.

Cameras are installed at locations that meet the criteria in the NSW Speed Camera Strategy. Site selection includes both crash analysis and thorough assessment of the site to ensure that installation of a camera is appropriate.

The cameras will be installed and activated over the next four to six months. All new red-light speed camera locations include enhanced warning signage and a four week warning letter period.

Drivers are advised to observe the posted speed limit at all times.

To view the complete list of all speed camera locations in NSW, click [here](#).

Further updates will be sent as they become available.
