

# Safer Roads NSW

## Changes to permanent speed limits

Transport  
for NSW

27 March 2014

### Northern

The changes below are anticipated to take effect in the following two weeks.

Speed limits are set for all roads in NSW in accordance with the NSW Speed Zoning Guidelines. The changes outlined in the table below have been recommended following the completion and approval of a speed zone review by authorised speed zone officers.

This is advanced notice of a proposed speed limit change, however no change will occur until the relevant speed limit signs are changed.

**Please ensure that you always observe the posted speed limit signs on the road.**

Road name	From	To	Local Government Area	Current speed limit km/h	New speed limit km/h	Reason for change
New England Highway, Moonbi	100 metres north of Mount View Road	The junction of the southbound divided carriageway	Tamworth Regional	100	80	This speed limit change will improve consistency with surrounding speed limits to provide a simpler and safer road.
New England Highway, Moonbi	300 metres south of Mount View Road	200 metres south of the junction of the southbound divided carriageway	Tamworth Regional	100	60 (Bus & Truck)	This change reduces the speed limit at this location in response to local community concerns.
